Education

Bachelor of Technology in Computer Science Engineering, 2021 – 2025
Koneru Lakshmaiah Educational Foundation, Guntur
CGPA: 8.08

Intermediate, *Sarada Educational Institutions, Vijayawada* 2019 – 2021

School, *St. John's E.M. High School, Vijayawada* 2019

Skills

Technical Skills

Programming Languages: Java, Python, HTML + CSS
Cloud & Databases: SQL, Oracle Cloud Infrastructure
Relevant Coursework: Data Structures & Algorithms,
Operating Systems, Object-Oriented Programming,
Database Management Libraries & Frameworks:
Pandas, NumPy, Matplotlib

Soft Skills

Problem Solving, Self-Learning, Adaptability, Project
Management, Teamwork and Collaboration

Projects

Data Visualization and Techniques

- Evaluated scalability, performance, and visualization capabilities of Tableau, power BI, and Excel for enterprise-level datasets.
- Identified strengths, limitations, and optimization strategies for each tool using statistical analysis and data visualization techniques.

Service Management System – Servizio

- Developed a full-stack web application that streamlines service management in gated communities by connecting customers, administrators, and service providers (captains).
- Enables customers to register, log in, and book services like plumbing, cleaning, and electrical work, while admins manage requests and captains update task statuses.
- Implemented a responsive frontend using HTML, CSS, JavaScript, and Bootstrap, with backend logic built in Python (Flask/Django) and MySQL as the database.

Service Management System

Developed an online bookstore project using Java, implementing features such as book catalog, user authentication, and order management.

Certificates

- AWS Cloud Practitioner Essentials
- Cybersecurity Fundamentals
- RPA Professional Essentials
- Oracle Cloud Infrastructure: Beacon
- Salesforce AI Associate
