Summary

Aspiring **Python Full Stack Developer and Generative AI Enthusiast** with hands-on experience in building web applications and AI-driven solutions. Skilled in **Python, React, SQL**, and **Machine Learning fundamentals**. Strong problem-solving ability with a foundation in **Data Structures and Algorithms**.

Skills

- **Programming:** Python, C, SQL
- **Libraries/Tools:** NumPy, Pandas, Git, GitHub, Excel
- **Web Development:** HTML, CSS, JavaScript, React
- **Core Concepts:** Data Structures, OOP, Problem Solving
- **AI/ML:** Machine Learning, Generative AI, Data Analysis

Experience

Generative AI Intern

2026

TalentSmart

- Worked on **Generative AI applications** using Python and modern AI tools.
- Built and tested AI-driven solutions to improve automation and user experience.
- Performed data preprocessing and prompt optimization for better model outputs.
- Collaborated with teams to develop scalable AI-based features.

Python Developer Intern

Jan 2026 – Mar 2026

(Combined Internship Experience)

- Developed backend applications and mini-projects using **Python and SQL**.
- Strengthened understanding of APIs, data handling, and application logic.
- Solved real-world problems and improved coding and debugging skills.
- Gained experience in teaching and mentoring Python fundamentals.

Projects

Smart Shopping E-Commerce Recommendation System

- Developed a recommendation system using **Python** and data analysis techniques.
- Implemented user behavior analysis to improve product recommendations.
- Enhanced search efficiency and user experience through intelligent suggestions.

Education

B.Tech in Computer Science and Engineering

2021 – 2025

Sri Venkateswara College of Engineering, Tirupati

CGPA: 7.5

Additional

- Participated in hackathons and technical competitions.
- Actively learning AI/ML, Generative AI, APIs, and scalable system design.
