

MAREDDY ROHITHA

rohithamareddy30@gmail.com | +91 9701681292 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Computer Science graduate with hands-on experience in Python, Machine Learning, and Generative AI. Strong foundation in software development and AI technologies, with a passion for building scalable, real-world solutions. Quick learner, committed to writing quality code, continuously improving technical skills, and contributing effectively to a collaborative team.

EDUCATION

QIS College of Engineering and Technology, Ongole

2021-2025

Bachelor of Technology in Computer Science and Engineering | 82%

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Technologies: HTML, CSS, Bootstrap

Machine Learning: Supervised & Unsupervised Learnings, Algorithms, Feature Engineering, Model Evaluation

Artificial Intelligence: Generative AI, LLMs, RAG, Prompt Engineering, Transformers

Databases: MySQL

Tools: VS Code, Jupyter Notebook, Git, GitHub

Soft Skills: Time Management, Communication, Problem Solving

PROJECTS

UPI Fraud Detection System Using Machine Learning

Developed a fraud detection model using Logistic Regression, Random Forest, and XG Boost on transaction data(15+ features), achieving 92.4% precision and 0.89 F1-score with SMOTE for class imbalance. Reduced false positives by 31% and automated detection, saving ~8 hours/week of manual review effort.

Shrimp Disease Detection Using Machine Learning

Developed an image-based disease detection system using CNN and KNN, achieving 93.7% accuracy and 96% recall for Diseased class. Deployed via Flask REST API with Docker and React dashboard, reducing disease-related losses by 25% in Pilot testing.

INTERNSHIPS

Generative AI Internship|Talent Smart

May 2026-PRESENT

- Developed practical skills in Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, and AI application development.
- Built AI-powered projects including LLM-based Image Caption Evaluation, Intelligent Content Moderation, and Face Recognition Authentication using Python and modern AI frameworks.
- Continuously expanding expertise by developing efficient, scalable, and real-world AI solutions while exploring advanced Generative AI technologies.

CERTIFICATIONS

- Python Full Stack – Codegnan IT Solutions
- Python Developer Certification — freeCodeCamp
- Intro to Machine Learning , Intro To Deep Learning – Kaggle
- Generative AI for Everyone – DeepLearning.AI (Coursera)

TECHNICAL ACTIVITIES

- Participated in SMART INDIA HACKATHON
- Participated in Meta Hackathon 2026
