CAREER OBJECTIVE

Enthusiastic fresher with a good understanding of Python fundamentals and strong problem-solving skills. Familiar with Linux operating system and basic networking concepts. Quick learner with a strong interest in learning new technologies and adapting to new challenges. Seeking an entry-level Software Engineer, Python Developer, or Gen ai developer role to grow, contribute, and be part of innovative projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, SQL, HTML
 - **Machine Learning & Data Science:** Predictive Modeling, Data Analysis, Statistical Analysis
 - **Tools & Technologies:** Pandas, NumPy, Scikit-learn, TensorFlow, MySQL
 - **Core Competencies:** Problem-Solving, Algorithm Development, Data Preprocessing
-

EDUCATION

- **B.Tech in Electronics and Communication Engineering**
KSRM COLLEGE OF ENGINEERING (2021–2025) | CGPA: 8.49/10
 - **Intermediate (MPC)**
Govt Junior College (2019–2021) | Percentage: 84%
 - **SSC**
Z.P.High School (2019) | GPA 9.2/10.0
-

PROJECTS

Stroke Risk Prediction System (Healthcare ML Project)

- Developed a machine learning model to predict stroke risk using Python and data preprocessing techniques.
- Enhanced model accuracy by 25% through feature engineering and statistical analysis.
- Applied ML algorithms for early medical risk detection.

Taxi Fare Prediction System (Transportation Analytics)

- Built a predictive model for taxi fare estimation using regression analysis.
 - Designed data visualization dashboards for trend analysis and pricing optimization.
 - Utilized Python, Statistical Analysis, and Regression Modeling for accurate results.
-

CERTIFICATIONS

- Machine learning – koggle
 - Python – free code camp
 - Data Science – Great Learning
 - SQL & Python – koggle
 - Python fullstack - ExcelR
-

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Soft Skills:** Communication, Teamwork, Analytical Thinking, Problem-Solving
- **Hobbies:** Learning New Technologies, Reading Books, Playing Games
